How to Use the Co-Driver Function

Step 1 ➔ **Step 2** ➔ **Step 3** ➔ **Step 4**

**Log in and select the HOS page.**
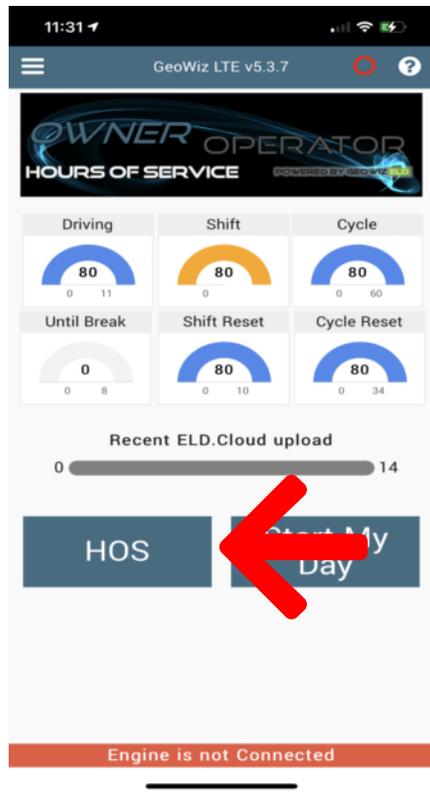

Select the Driver option
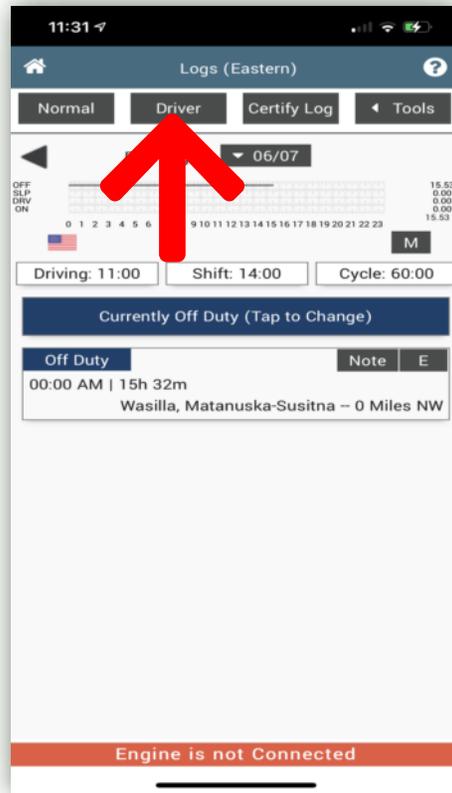

Select yes
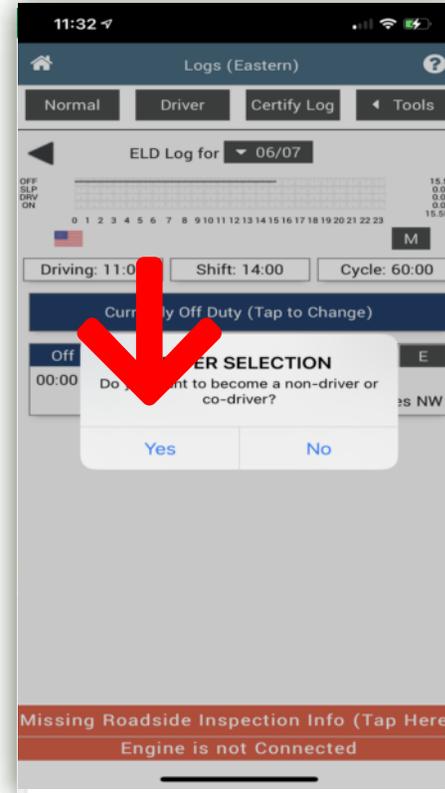

You should now see the two orange bars
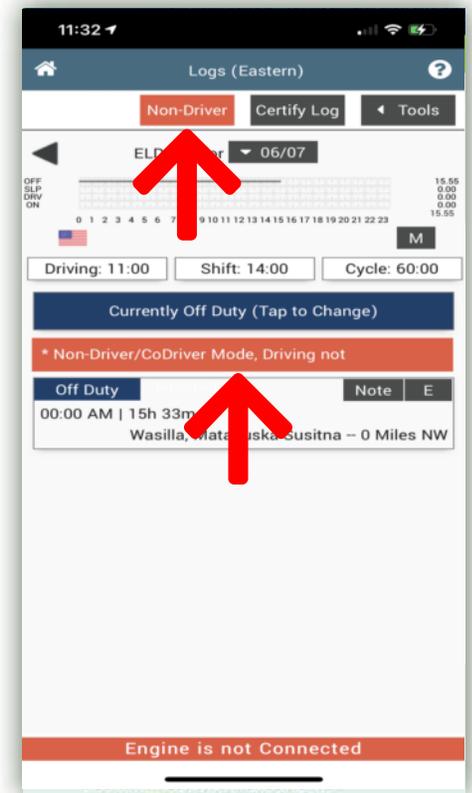

How to Use the Co-Driver Function

Step 5 ➔ **Step 6** ➔ **Step 7** ➔ **Step 8**

Select Tools Tap Manifest

Enter the Co-driver's Name

For separate devices have co-driver repeat steps 1-4

To share a device have only the current driver logged in
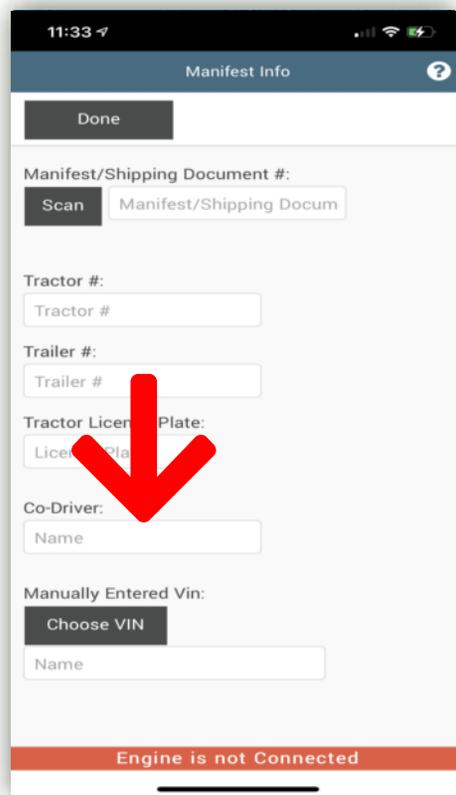

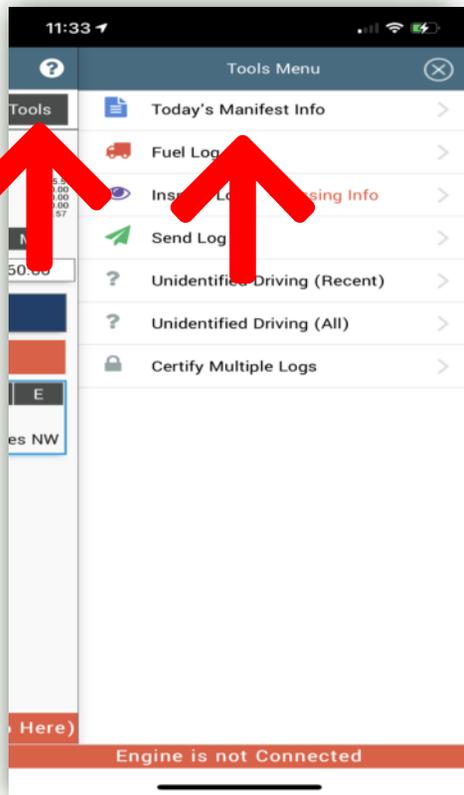

Note:

Make sure that each driver has their own account. Two drivers cannot share the same account as this will cause errors and can lead to violations.
